Additional information regarding attempted service, etc:

**5/6/2023 5:00 PM:** I spoke with an individual who identified themselves as the head of security on duty. This individual stated that they were not authorized to confirm or deny if the subject was on the premises and available. When asked to be put in contact with a corporate legal liaison or a member of legal facilities I was referred to CT Corp, Tesla's registered agent, or legal@tesla.com. I informed the head of security that the subpoena is not for Tesla, but an executive, and requested to be put in contact with an executive liaison in order to relay a notice of service. I was again referred to CT Corp or Tesla's legal address. The head of Security on duty informed me that they would not be escalating to anyone able to assist with the matter.
